Features

Features : Low elongation

Features : High visibility

Features : 3x braided construction

Fishing techniques : Trout Area

Fishing techniques : Brook trout fishing

Fishing techniques : Game fishing

Description

3-ply braid particularly suitable for light fishing styles such as finesse, trout area and light game. Available in ultra-thin diameters suitable for fishing techniques with light equipment. Very tenacious, it has zero elongation and guarantees high visibility. Built with superior quality fibers that guarantee the maintenance of performance even after intense use. Especially suitable for reel.
