Features

Features : High softness

Features : Low elongation

Features : High visibility

Features : Parallel spooling

Fishing techniques : Spinning

Fishing techniques : Lure fishing

Fishing techniques : Surf casting

Fishing techniques : Brook trout fishing

Fishing techniques : Bolognese

Fishing techniques : Game fishing

Description

Asso Diamond is a product that has made the history of the Asso brand since the 1980s. It is a specific line for surfcasting and lure fishing thanks to its exceptional smoothness, still unbeatable today. Extremely soft and pasty, it guarantees exceptional resistance to abrasion and traction. The top quality of the line allows a very long life overtime, even after several uses. It features a typical yellow color with high visibility out of the water which allows optimal control of the fishing area. It is multipurpose and suitable both for reel and leaders.
