

This is a Sample Title

Product name : ASSO MAINLINE ABRASION

Summary

Reliable abrasion resistant silicone nylon line

Pricelist

Packaging : 1000 m	Support : Spool	Size : 20 LB	Color : RED	€21.50
Packaging : 1000 m	Support : Spool	Size : 16 LB	Color : RED	€21.50
Packaging : 1000 m	Support : Spool	Size : 12 LB	Color : RED	€21.50
Packaging : 1000 m	Support : Spool	Size : 10 LB	Color : RED	€21.50

Features

Features : High softness
Features : High abrasion resistance
Features : High visibility
Fishing techniques : Carp Fishing
Fishing techniques : Coarse fishing
Fishing techniques : Cat fishing

Description

Asso Mainline Abrasion is a silicone coated nylon monofilament 12 times more abrasion resistant than traditional high quality nylon lines. It's the best solution for those anglers who fish in sites where vegetation and rocks make fishing difficult. The excellent resistance ensures great durability and reliability. Tangle-free thanks to its no mechanical memory. The smooth and silky surface allows to make perfect knots. Available in three different colors for maximum camouflage. Especially suitable for reel.
