Support : Spool	Color : GREY	Packaging : 50 m	Size : 0 X	€9.00

Features

- Features : High softness
- Features : Fluorocarbon coated
- Fishing techniques : Fly Fishing

Description

Asso Copolymer Soft is a next-gen fluorocarbon coated line that ensures maximum softness, durability and toughness. Its colouring is invisible to fish and the diameter range is very wide. It has no memory and is available in a brand new ultra-thin spool format for easy storage, with colored identification elastic band. Especially suitable for leaders.
