Features

Features : High softness

Features : Low visibility

Features : Conical structure

Fishing techniques : Fly Fishing

Description

Asso Knotless Tapered Leader features a very strong and resistant surface. It is designed to resist and absorb constant shocks without compromising performance. It has no memory and a good softness/rigidity ratio, for a perfect fly presentation. This leader has very powerful butt and taper that perfectly fit even the most heavy flies and the typical marine pattern. Available in two different colors to guarantee low visibility in any condition. Especially suitable for leaders.

Specs	MISURA	TIPPET			BUTT	
		diam mm	diam inch	test lb	diam mm	diam inch
	7x	0.10	.004	2.0	0.41	.016
