Color : WHITE-00 Support : Hank Size : 7 X Packaging : 7.5 FT €6.50

Features

Features : High softness
Features : Low visibility
Features : Conical structure
Fishing techniques : Fly Fishing

Description

Asso Trout Tapered Leader has a very strong and resistant surface, designed to resist and absorb even continuous shocks without compromising performance. It has no memory and easily straightens. It features a good softness/rigidity ratio for an excellent fly presentation. Proposed in a neutral color to ensure low visibility in all conditions and ideal for bait presentations in clear waters and with suspicious fish. Especially suitable for leaders.
